## **Our Charity This Year**

School 57 is located in the City School District near Lyell and Montrose Streets. It is a small school with limited resources. The teachers there are dedicated to expanding the children's education far beyond the work day; teachers volunteer their time to participate in enhanced programs for parents and students after school. Parents are invited to group and family learning sessions and are given materials for their homes in order to continue reading and teaching the child while school is not in session. Part of the money we donate this year will help provide transportation for the parents to attend these after school events and will provide an evening meal for the families who attend the after school events. Other money will go towards supplies for the children's continued education at home. 100% of the money donated in today's raffle will go School 57.
