Our members include physicians and nurse practitioners as well as PAs, and we welcome all of our medical colleagues to join one of the largest and most active local PA organizations in the country.

We have worked hard to keep annual membership fees at an affordable rate of \$30 for PAs and affiliate members, and only \$10 for students. We have never raised membership fees in the decade-long history of the organization.

Benefits of membership:

Access to the Members Only section of the website &ndash; here, you'll find salary survey results, annual conference lecture notes, and the latest job listings  
Reduced fees for CME events  
Opportunity to network with other PAs

- Ability to vote during annual elections and to serve on the Board of Directors

What your membership dues are used for:

CME fees for accreditation and sponsoring some events  
Scholarship fund for local PA students  
Awards for PA of the Year and Physician of the Year  
Benevolent fund to assist PAs suffering from tragedies

- Website design and maintenance &ndash; includes recent updates to allow you to view and edit your account online, receive membership renewal reminders, and the ability to pay for your membership dues and conference fee online
